

O.T. BANDITS GET \$1800; ARE TRACED TO OAKLAND

Bind, Gag and Beat Car Dispatcher as Safe Is Looted of \$1859 in Cash at Richmond

POLICE DRAGNET SPREAD FOR THUGS

Early Morning Battle Is Told by Employee Who Crawls to Alarm and Is Found by Car Crew

Speeding from Richmond and reaching this city before the general alarm had been sent out, the three bandits who this morning beat and robbed the car dispatcher of the Richmond car barns of more than \$1800 of the company's funds, reached Oakland in safety. They are now believed to be in hiding either here or in San Francisco.

This was declared by detectives this morning after it was learned that the white-colored automobile in which the bandits escaped from Richmond after the robbery had been seen at University and San Pablo avenues, breaking the speed limit and going toward this city. This was a few moments before the police dragnet was set in Berkeley—probably about 10 o'clock.

STRUGGLE IN OFFICE.
Elmer E. Woodruff, the car dispatcher, is under medical treatment as the result of his struggle with the bandits. When the first man appeared with the revolver, Woodruff grappled with him and the other men, waiting in the doorway of the office, leaped on him from behind. One of them kicked the dispatcher in the head as he fell, tripping by the third man. Woodruff was unable to give more than a vague description of his assailants, with the exception of the man who first entered the office with the revolver and who he says, was dark and of dark complexion.

A bystander, who saw the automobile draw up in front of the office, furnished the police with a description of the machine, which he declared was a wine-colored Oldsmobile model. He did not, however, notice the number.

Woodruff, bound and helpless, rolled to the burglar alarm and managed to set it off before carmen, entering the office, freed him and notified the police.

SUSPECTS RELEASED.
Two suspects who had an automobile around the cafes of Richmond and the San Pablo boulevard were traced to Oakland and placed under arrest. One of the witnesses as to the automobile number, Woodruff, Henry C. Clow and others who had seen the automobile, failed to identify the machine used by the two suspects. Woodruff said they were not the men who had held him up. They were released by order of Captain Peterson. The two men explained that they could provide a satisfactory alibi and the police believe this to be true.

Several automobile loads of Oakland and Richmond police scoured the downtown section of Oakland this morning, seeking the machine. It is believed that the bandits abandoned the automobile here and scattered, making their way through Oakland and Berkeley.

The dispatcher had just finished counting the money turned in on the last run of last night, he declares, when the robbers attacked him, entering the office through a hallway. A small man, he says, entered first, flourishing a cheap revolver under his nose.

"I did not see the others," he said, "and grabbed the gun. The other fellow and I rolled over the floor and just as I had the gun away the others came in. One of them held me in the head. They had a rope hand and used my hands and feet, wrapping the rope around me and fastening it to a chair. They used three handkerchiefs, now, evidently just bought, for the gag."

\$1859.35 IS LOOT.
The exact amount of coin taken, according to the treasurer's figures, was \$1859.35. There was \$500 in gold, the rest in silver, dimes and nickels. The robbers left \$2 worth of pennies.

It was 7:02 o'clock when the robbers, gathering their loot, left the carmen. They entered the barns just as a car left and escaped before the car arrived. Woodruff succeeded in getting to the alarm box only after wriggling through the ropes. His hands are badly cut.

Convict Guarded Grave as Pal Buried Dorothy Arnold

PROVIDENCE, R. I., April 17.—Edward Glenora, inmate of the state prison here, told the police today he stood guard while a pal buried the body of Dorothy Arnold, missing heiress, in the cellar of a house near West Point, officials announced. They are investigating his story. He claims this is the plot to dispose of the girl originated in a Seventh avenue saloon, in New York.

According to the convict's story, a mysterious rich man hired him and another man to go to New Rochelle and "do the job." Dorothy Arnold has been missing for six years, and her disappearance created a widespread sensation. On several occasions she was reported found, and there have been numerous versions of her fate.

"If I dared," said Glenora, "I could name the man who hired me. My life will be worth little when that gang that hangs around the saloon knows I told."

Police say they have confirmed several of the details of the confession. According to the police report, Glenora said he was at one time on the stage. He served sentences at Elmira and Sing Sing.

Miss Arnold disappeared from the home of her father, Francis R. Arnold, a wealthy importer, on December 12, 1910.

NEW YORK, April 17.—Francis Arnold, father of Dorothy Arnold, does not believe the story told by Edward Glenora, the convict who claims that a pal buried the body of the heiress in a cellar.

So far as it appears on the face of the man's story," said Arnold, "he is talking utter nonsense."

HIGH ARMY HEADS IN SAN DIEGO AIR QUIZ SENTENCED

General Scriven and Colonel Goodier Censured; Colonel Reber Relieved of Duty.

WASHINGTON, April 17.—Secretary of War Baker today censured General Scriven and Colonel Goodier for neglect of duty as a result of the aviation board's inquiry into the "aviation scandal."

President Wilson today approved the recommendation of the secretary of war to relieve Colonel Goodier of his position as commander of the aviation section of the War Department, and to relieve Colonel Reber of his position as commander of the aviation section of the War Department.

General Scriven was censured "for his failure personally to supervise the disciplinary features of the aviation corps administration." Colonel Reber was censured "for neglect of duty as a result of the aviation board's inquiry into the 'aviation scandal.'"

LONG LIST OF CHARGES.
Reber was charged with a long list of offenses, including disrespect to a co-ordinate branch of the army, failure to observe the law's restrictions with regard to the aviation personnel and pay for members of the aviation section, lack of business methods with regard to the disposal of government property represented by discarded machines and failure in that degree of loyalty to a superior officer which would have saved both General Scriven and himself from the censure now imposed on them.

BUILDING UP OF ARMY CORPS.
The new result of the work done in aviation in the army can be safely said to be the building up of a corps of daring, skillful and successful fliers, and the work now being done by the aviation section in Mexico demonstrates the usefulness of this arm and the need which has been expended in its organization and legislation.

"Restlessness and impatience on the part of some of the men in the corps with the slow progress is not an unnatural result of their zeal and their youth. That those higher officers, responsible for the development of the corps allowed their entire effort to be directed to the aviation section and neglected the other branches of the army is a serious matter."

Goodier, judge-advocate of the Western department of the army, was tried in San Francisco on a charge of altering specifications in a bill of complaint against Captain Arthur S. Cowan, commander of the San Diego military aviation camp. The charges were of a technical nature, but the real question was one of discipline and of the attitude which seniority of rank required him to observe toward junior officers.

The charges were of a technical nature, but the real question was one of discipline and of the attitude which seniority of rank required him to observe toward junior officers.

BOARD WILL SEEK PROOF OF CRUELTY

Investigation of Infirm- ary Charges Decided Upon

Hearing Is Set for April 26; Foss Renews His Attack

Charges of drunkenness among employees in the county infirmary, alleged mistreatment of inmates and other allegations brought by Supervisor Fred W. Foss will be investigated by the Board of Supervisors at a special inquiry to be held at the infirmary on the morning of April 26. This action was decided upon by the board today, when Supervisor Charles W. Hoyer of the hospital committee moved that a searching probe be made into all hospital affairs.

"I do not believe there is anything wrong there," he declared, "but there have been so many charges and so much talk that I want the whole thing laid open from start to finish. Therefore I move that we investigate."

The order of investigation follows charges made by Foss last week that employees of the infirmary, as well as inmates, frequented a saloon in the neighborhood, and that these employees were drinking and smoking, and that the inmates were being mistreated. He declared that the hospital was "ruled by booze fighters," and also charged that Dr. C. A. Willis was not on the job as much as he should be. The latter charge Doctor Willis denied.

CERTIFICATES SHOWN.
A new league was injected into the dispute today when Foss, whose disagreement with Doctor Willis dates from the time he accused Willis of doing politics against him, this morning showed certificates alleging that Dr. Willis had been relieved of his position from the infirmary for refusal to work, was physically unable to work. One of the certificates was signed by Dr. Ernest Pape. Pape is a recent college graduate, who was an intern at the hospital, and it is said was dismissed by Willis some months ago. The certificates were not filed with the board.

King's election from the infirmary started the trouble last week. Foss, who sent the man to the hospital, alleged that King had been abused by the dining-room foreman, hence his refusal to work at Willis' order in the hospital.

WILSON READY TO SUBMIT NEW DIVER NOTE TO GERMANY

President Spends Saturday and Sunday in Completing U. S. Demands.

WASHINGTON, April 17.—The new submarine note to Germany probably will go forward to Berlin tonight. The cabinet has already ratified its substance, so there is no necessity for holding it up until tomorrow's session of the President's advisors.

The White House today stated today that President Wilson had devoted practically all his attention to the document on Saturday and Sunday and that he expected to put the last touches on it this afternoon. It is still likely that when the message is completed the President will go over it with members of the House and Senate foreign committees, but he has not yet requested a conference with them.

The American note is described as a notice that a continuance of friendly relations with Germany depends on action rather than words. It suggests that promises of reparation for violations and punishment for the offense of submarine warfare are not sufficient and that America's position is based on a complete review of the submarine warfare ever since the Lusitania was sunk. Officials also believe that Germany must change its mode of submarine warfare entirely if it wants relations to continue. Unofficial reports from Berlin indicate that the German government is willing to meet America's position in the Sussex matter brought official expressions that that would not be enough and that a more comprehensive settlement is wanted.

English Newspapers Certain of Break

LONDON, April 17.—The relations between the United States and Germany for the first time in several months again occupy a leading place in the day's news here. The newspapers this morning publish prominently the latest tidings from Washington regarding the probability of a new note to Germany amounting virtually to an ultimatum. Several of the newspapers declare that the ends of the patience of the United States has at last been reached and that a rupture of diplomatic relations is virtually certain.

A column is devoted in most of the newspapers to reproducing "an address" just received from New York. It bears the signatures of 500 Americans, including college presidents, public men and other notables. The address declares at length that "we believe the welfare of that civilization for which Germany has done so much demands that in this conflict Germany be defeated."

GREECE MAY BE FORCED INTO FIGHT

Entente Allies Compel Action That Offends Central Powers

Activities Around Ver- dun Subside After French Gains

LONDON, April 17.—The allies have forced a new crisis in Athens, with a possibility that Greece may be thrust into the war against its will. Overriding all objections, the entente powers are today transporting Serbian troops overland by railroad from Corfu to Salonika. Austria and Germany protested that they would regard this as a deliberate unfriendly act if Greece permitted it.

French correspondents at Athens have reported that King Constantine is incensed at the allies' action and may attempt to halt it by force. The allies did not want to transport the newly equipped Serbian soldiers by water because of the submarine dangers. It was suggested to Premier Skouloudis that the troops be sent to Patras by steamer and thence to Salonika by rail. Skouloudis sounded out the country and would commit an unneutral act if he acquiesced in the proposal. Skouloudis then announced that if the Serbians went through Greece the people might make a demonstration. The allies, however, proceeded with their plans.

PARIS, April 17.—French positions in Avocourt wood and on the front from Dead Man's hill to Cumieres were bombarded yesterday. There were infantry attacks the official report of the afternoon says. To the east of the Meuse the night was calm except for artillery activity at Haudremont wood.

The text of the statement follows: "On the left bank of the Meuse there has been an intense bombardment of the French positions in the Avocourt wood and on the front from Lemort Hommes to Cumieres. "South of Haudremont Wood there was continued artillery activity. There were no infantry attacks."

"On the morning of April 17-18 a French air squadron composed of nine machines, during fog, executed certain important bombing operations in the region of Conflans, Pagny, Arnayville and Rombach. Projectiles were dropped."

DIVER FIRES RUSS BARK; AMERICANS ON BOARD HURT

Austrian Submarine Attacks Without Warning, Report.

WASHINGTON, April 17.—One American was wounded by shrapnel and another escaped without injury when an Austrian submarine last Tuesday fired and set ablaze the Russian bark Imperator, loaded with lumber, sailing from Gulfport, Miss., to Marseille, the American consul at Barcelona Spain reported today. The submarine shot at the bark three times without warning, said the advice. One shot was effective. It happened near the Columbrede Islands. Subsequently the Imperator burst into flames.

The American injured was Gustave Olson, whose father is bandmaster at Fort Warren, Boston. The other American who was aboard was Aker Swenson, whose brother is foreman of a Minneapolis furniture factory. The state department's information came from the American consul at Barcelona, Spain. He said the ship was fired upon without warning on April 11. Three shots were fired, one taking effect. The vessel was set afire by the submarine. Olson was reported to be in a hospital at Barcelona, suffering from shrapnel wounds.

LONDON, April 17.—One or two Americans were possibly among the eleven sailors who perished when the submarine inventory was attacked by a submarine, two American survivors declared today. They said they were certain the Americans were missing.

LONDON, April 17.—The sinking of a neutral ship and a British steamship was reported by Lloyd's today. The Norwegian ship Glendown was sunk by gun fire. The lost British steamship was the Harrold, which was unarmed.

U.S. Grand Jury Indicts Von Papen

NEW YORK, April 17.—Captain Franz von Papen, recalled military attaché to the German embassy at Washington, today was indicted by the federal grand jury in connection with the alleged plot to blow up the Wellfleet canal in September, 1914.

Von Papen was one of five persons indicted in the case, including Captain Hans Tauscher, who is already under arrest, charged with being connected with the plot.

VERIFICATION OF REPORT OF VILLA'S DEATH LACKS

Treachery Is Said to Have Been Cause and Plan of Parral Fight

CARRANZISTA INVITED VISIT

Civilian Mob Struck First Blow Against Troops, But De Facto Soldiers Took Lead in Fatal Pursuit

Parral Casualty List

SAN ANTONIO, April 17.—Following are the names of the American dead and wounded in the action at Parral.

Dead:
Sergeant Joe Ridgely.
Lieutenant Herbert Ledford.
Wounded:
Major Frank Tompkins.
Lieut. James B. Ord.
Corporal Benj. McGill.
Corporal W. E. Wullingham.
Corporal Richard Tannous.
Private I. M. Sheldrake.

SAN ANTONIO, April 17.—Forty Carranzista soldiers, including a major, were killed in the fight at Parral Wednesday, according to detailed report made by General Pershing to General Funston.

Major Frank Tompkins, whose M and K Troops of the Thirteenth Cavalry are the Americans engaged, was slightly wounded in the foot. Two Americans were killed and six wounded, including the major. Only one Mexican civilian was killed.

General Pershing reports that an officer of the Parral garrison visited Major Tompkins' camp, ten miles from the city, and officially invited him to come to his city with his troops.

Tompkins acted on the invitation and rode into a hostile city. Whether the invitation was part of a deliberate trap is a matter not discussed in Pershing's message, but at headquarters here it is believed that treachery in the garrison led Tompkins into the encounter.

General Funston states he is convinced from the information he has that General Lozano acted in good faith.

Beginning as a mob demonstration against Tompkins' men the riot soon developed into a definite military action, with 300 Carranzista soldiers led by their officers taking the aggressive.

The mob element virtually disappeared with the action when 300 Carranzista soldiers of the garrison flanked the Americans out of a position they had taken behind a railroad embankment at the edge of the town. From that point Tompkins' men fought a rear-guard action nearly all day with the Carranzista village eight miles to the northeast.

Colonel W. C. Brown came up at Santa Cruz with Major Young's squadron of the Tenth Cavalry, and late Wednesday night Major Robert L. Howe arrived from the north with his division.

Major Howe himself had a new series of actions to report. From La Borda south to near Santa Cruz he had fought several forces whom he took to be Villista bandits. One of his men was killed and one wounded. He encountered Carranzista forces who were unable to report whether any of the bandits were killed.

A message Colonel Brown sent from Santa Cruz yesterday indicates that the attack of the Mexican soldiers and Carranzistas was renewed Thursday evening.

Mexican Account Blames Americans

MEXICO CITY, April 17.—The war office received a dispatch last night in which further details are given of the Parral affair. It was asserted an American army officer admitted his culpability for entering the town of Parral without permission.

The dispatch also says American troops have ceased their movement southward until such time as negotiations between the United States and Mexican governments are terminated. The full text of the dispatch follows:

How Carranza Troops Are Stationed Behind American Expedition

Carranza troops are stationed behind American advanced forces and along the expedition's lines of communication, as follows:

At Juarez, 1800 under General Gabriel Gavira.
At Guzman, 100.
At Acapulco, 500 under General Rafael Davila.
At Parral, 200.
At Villa Ahumada, 500 under General Hernandez.
At Ocotillo, 4000 under General Francisco Gomez.
At Nacimiquil, 500 under Colonel Apolinario Cano.
At Madera, 1200 under General Francisco Bertani.
At Minaca, 300 under General Francisco Garcia.
At Guerrero, 500 under General Juan Cuyasos.
At Chihuahua City, 4000 under General Luis Gutierrez.
At Salto, 1500 under General Luis Herrera.
At Parral, 500; Jimenez, 500; Santa Barbara, 300; Santa Rosalia, 300; Escalon, 500.
In addition there are 12,000 Carranza troops in Sonora, under General P. Elias Calle; 9000 in Durango State under the Arriola brothers and General Francisco Murgu, and 5000 at Torreón, Coahuila, under General Jacinto Trevino.

If Rumor Is True Troops Will Be Withdrawn at Once, Assertion

BODY ON WAY TO CHIHUAHUA

Bandit Leader Is Said to Have Died Two Weeks Ago; Carranza's Nephew Heads Escort of Corpse

SAN ANTONIO, Tex., April 17.—General John J. Pershing has left Cuernavaca with a cavalry detachment to view the body of Francisco Villa, the place where the body was found by Carlos Carranza and said to be the corpse of Francisco Villa. It was learned at army headquarters today. He should be able to give General Funston positive advice within a few hours, unless the rumors are in such a condition that they cannot be identified.

WASHINGTON, April 17.—War department officials announced that none of the overnight dispatches or early telegrams brought any confirmation of the finding of the body of Francisco Villa. Definite information is eagerly awaited by administration officials.

Secretary Baker received today a dispatch from Naco saying that General Pershing was last seen heading in the direction of the place where reports yesterday said he was buried. The dispatch was taken by war department officials to mean that the reports of Villa's death might be true. The dispatch was immediately sent to President Wilson.

Hours ago hours pass without confirmation of the story of the finding of the body of Francisco Villa. Washington grows more doubtful.

Villa's body was to have reached Chihuahua City by special train some time last night, but American Consul Letcher has not yet received the rumors as to Villa's death, which must be circulating there.

The Mexican embassy here had no additional information. Its last report from Consul Garcia at El Paso said he was seeking confirmation.

It is the unofficial advice from the border, the American troops will be recalled from Mexico at once, according to official announcement.

Latest reports saying that the bandits' body had been dug from a tunnel in the desert, a nephew of General Carranza and was being taken to Chihuahua City, focused attention on American Consul Letcher at that place. Officials looked to him to throw light upon Villa's reported death and also to promptly identify the body if possible.

President Wilson and Secretary Baker had before them today the first direct official information of the attack on American soldiers at Parral. It was a report from Brigadier Frank Tompkins, slightly mutilated, that the incident was far more serious than was at first supposed. The report said that 300 Carranzista soldiers joined civilians in the attack. The casualties were two Americans killed and six wounded, including Major Tompkins. Twenty-one Mexican soldiers were killed, one civilian wounded.

EL PASO, April 17.—Francisco Villa may be dead, as reported from various sources today, but American army men are anxious that his body be identified by United States representatives. A train left Juarez for Chihuahua City before dawn with a number of Americans, including several who had known Villa intimately. They expected to meet the body at Chihuahua.

Carlos Carranza's train is due in Chihuahua today. Carlos, nephew of General Carranza, is said to have excavated Villa's remains from a grave where they had been buried two weeks. The bandit chief's death was said to have been due to amputation of one of his legs, which had been infected by a bullet received in the fighting at Guerrero. Carlos telegraphed a dispatch to Mexico City, saying he had known Villa intimately, so that identification is expected immediately upon the arrival of the death train there.

General Pershing, commanding the American troops in the field, met Villa several times. He was near the spot where it is supposed the body was exhumed. Even if he is not asked to identify the corpse it is hoped Pershing may be able to report definitely with regard to Villa's end.

Advises received by the Mexican war department said that, following the battle of Guerrero, where Villa was hit, his followers carried him to Temascal, where a village doctor cut off his infected leg. Later he was carried by his men south to the village of Cuernavaca, thirty-nine miles away, where he died, according to the reports. He was said to have suffered greatly before expiring.

With Villa's identity being kept secret from the villagers, his followers carried him secretly away in the middle of the night and buried him in a lonely spot.

The advisers went on to assert that a member of the guard which escorted Villa during his last moments was captured by Carranzistas and promised to point out Villa's grave if his life was spared. This, it was said, was done. Carlos superintended the work of digging up the remains. He

PRESIDENT SAYS HUMANITY ONLY EXCUSE FOR WAR

Nation's Executive Opens 25th Continental Congress of D. A. R.

WASHINGTON, April 17.—"America will never fight merely for territory," President Wilson said today, addressing the Daughters of the American Revolution, assembled here. The audience sat tensely silent under his words.

"The only excuse America can ever have for asserting her physical superiority is to fight in the interest of humanity," the President continued. "When America forgets human rights she will have lost her title to her own high traditions."

"America's birth is glorious, in that no other nation was ever born for the purpose of serving the rest of the world as much as itself. Tradition is a beautiful thing insofar as we live up to it. If we forget the traditions of our fathers we will have become unconscious of the things for which our country was founded."

In the meeting Mrs. Walter Reed will be president, and anti-preparedness will be represented at Wednesday night's preparedness meeting. President-General Mrs. Story overruled the request.

Other speakers included Mrs. John Hays Hammond, Newell B. Woodworth, president of the D. A. R., and the National Society Sons of the American Revolution, and W. S. Lincoln Adams, president of the New Jersey Society Sons of the American Revolution.

Ten vice-presidents-general and one honorary vice-president-general will be elected tomorrow. The delegates will attend a reception by President and Mrs. Wilson Thursday afternoon at the White House.

To Visit Proposed Water Supply Source

Mayor John L. Davis and Commissioner F. F. Jackson of Oakland, with representatives of the city council of Berkeley and Richmond, will visit the Blue Lakes district and the Red River watershed Saturday and Sunday with a view to considering the possibility of obtaining a water source for the east bay cities.

The Oakland city council held an executive conference today with General O'Grady, formerly of the United States surveyor general's staff, who has made a study of the Blue Lakes and Red River project.

The Oakland mayor and commissioners, with representatives of the neighboring cities, will make an inspection of the watershed at the head of the Red River and the Blue Lakes, going first to Ukiah and thence by auto over the water supply district.

Highway Gunners Sent to Asylum

LOS ANGELES, April 17.—W. H. Thompson and his wife, owners of a machine gun, were taken into custody April 7 by Deputy Sheriff after a two-day siege, were declared mentally unbalanced today by the county lunacy commission and ordered committed to the state hospital at Patton Lake. It is said they had been discharged from the hospital when persons passed along the San Fernando road before their house.

Death Is Close To Crown Prince

GENEVA, April 17.—The report reached here today that the German crown prince had made another escape from death or injury recently at the Verdun front. Accompanied by his staff and a number of correspondents, he approached in within range of a heavy French gun, one of whose shells exploded near him. It is said several persons were wounded slightly and that others, including Colonel Mueller, correspondent of the Berne Bund, were knocked down.

NATIONAL POLITICAL NEWS STATE

RUTHERFORD FOR G. O. P., DECLARES

W. T. Rutherford, member of the Progressive State Central Committee, City Attorney of Napa for many years and a leading attorney of this section of the State, has declared for the regular Republican ticket. Not only has he declared for the nominees of the Republican State Convention, but he has announced that he will give the ticket all of the support within his power to enlist for the candidates. This announcement, which reached the regular Republican headquarters yesterday, was received as a strong indication of the drift of Republican sentiment throughout the State toward the ticket that was nominated as representative of the party in California.

"The Progressive party is dead," said Attorney Rutherford, in an interview concerning his reasons for rejoining the Republican party. "I went into the Progressive party at a time when I believed that it could accomplish something for the people. But it has completely failed, and it no longer exists, in my opinion. My first allegiance has been to the Republican party, and I am thoroughly convinced that only through that party can success and prosperity in this country be attained."

GIVES HIS REASONS.
"The Republican party has been chastened, let us admit, and is now ready to go forward with the great work which is at hand. No party can perform that task in the same fashion that the Republican party can do it. We all look to that party for the security and safety of the nation in time of crisis."

"It is, therefore, the duty of true Republicans to enlist under its banner and to go forward with it."
"In California we Republicans have a duty to perform toward the party. And that is why I have declared for the regular Republican ticket. There is only one Republican party in this State, and that is the party which was so wonderfully represented at the State convention which was held on March 4 at the Palace Hotel in San Francisco."

"The nominees were the result of the coming together of hundreds of Republicans from all sections of the State. Every county in California was represented there, and the assemblage was as representative a gathering of Republicans as could be brought together under any circumstances."

"NOT TO FACTION."
"I maintain that the Republican party was there represented and that as Republicans we should give our support to its candidates and not to a small faction."

"This is the true Republican party. And it is through this party that we must act in our national activities and in our State affairs as they pertain to the national situation. I have given the matter a great deal of serious consideration, and I have reached the conclusion that the Republicans of this State should give their full support to the men and women who were named at the State convention."

Probe of Angel Island I Asked President Promises to Investigate Complaint

WASHINGTON, April 17.—President Wilson heard complaint today from Clements Horst, representing the San Francisco Chamber of Commerce, that ill-feeling was caused in the Chinese colony in San Francisco by the delay of immigration authorities, who, he said, postponed for long periods consideration of the cases of Chinese immigrants to enter the United States. Horst was introduced by Representative Kahn of California. President Wilson promised to investigate.

Several weeks ago The TRIBUNE called attention to the conditions existing at the immigration station on Angel Island and the arbitrary and unjust methods pursued by the immigration officials, causing delay as complained of above. This paper also called attention to the fact that the immigration office at this port was under the immediate administration of men who had been indicted by the federal grand jury for their alleged connection with the attempted smuggling of over eighty Chinese coolies on a Pacific Mail steamer. It pointed out that this was an unprecedented situation and information should be demanded of Commissioner-General Caminetti as to why the accused men were not suspended until their cases were decided.

Woman Mayor Will Decline Position

SAWTELE, April 17.—"I will decline the office of mayor when it is offered to me," said Mrs. Elden F. Aldrich, newly elected city executive, here today. "I have thought the matter over and reached the conclusion that I can do better work among the people unhampered by office strings."

At the municipal election here ten days ago Mrs. Aldrich received the highest number of votes, competing with six male candidates for trusteeship. She was automatically made mayor, as chairman of the board. Tonight at the first official meeting she was to have been declared mayor.

"You know, I can do ever so much more effective work by getting right down among the people of Sawtele, and working like every mother should work," concluded Mrs. Aldrich.

Wilson Literacy Test Rider O. K'd With Bill

WASHINGTON, April 17.—The House immigration bill containing the literacy test, but with amendments which are said to meet President Wilson's objection to the section excluding political offenders, was reported to the Senate today with recommendation for passage.

COURT INCREASES R. R. LIABILITY

WASHINGTON, April 17.—The United States court today so construed the various federal safety appliance acts that all employees, no matter whether engaged at the time in intrastate, or interstate commerce, may recover damages for injuries occurring through failure of interstate commerce railroads to comply with the safety appliance laws. It was regarded as a precedent-making decision, giving safety appliance laws a scope far greater than the federal employers' liability law. The first employers' liability law was even annulled years ago because it applied to employees engaged in intrastate commerce as well as those in interstate commerce.

The decision was announced in the suit of A. H. Richey, a brakeman of the Texas and Pacific Railroad injured by a defective ladder on a car marked "bad order" and left standing in the Marshall (Texas) yard for repairs. It was necessary for Richey to climb over the main line to the shops for repairs.

Justice Pitney, speaking for the entire court, held that Congress had taken to itself exclusive jurisdiction over the safety appliances for interstate railroads and that the state could not have authority to make laws regarding them for the benefit of state employees.

Delegates to Urge Harmony in Party

PROVIDENCE, R. I., April 17.—The Republican state convention today elected delegates to the national convention pledged to "support as a candidate for President one who will have the approval and support of a united Republican party."

Senator Warren O. Harding of Ohio declared in an address that no one man and no group of men would have any say in regard to the platform to be adopted by the Republicans at Chicago.

Preparedness, both in a military and industrial sense was the principal plank in the platform.

To Insure Supply of Twine to Farmers

WASHINGTON, April 17.—Senator Russell, chairman of the committee investigating an alleged monopoly to control the output of sisal, announced today that the federal trade commission would be asked to superintend disposal of the 100,000 bales now in Yucatan in order to insure a sufficient supply of binder twine for the American harvest.

Death for Men Who Surrender Russia Orders Warn of Dire Penalty

BERLIN, April 17.—"The original of an order, telegraphed by the Russian commander-in-chief to the commander of the Twenty-seventh army corps has been found on a captured Russian officer," the Overseas News Agency says. Among other things the order provides:

"Attacking troops must be instructed that reserves and artillery will open fire upon them if they should attempt to surrender."

Demand Cause for Not Certifying Hughes

SALEM, Ore., April 17.—A writ of mandamus requiring Secretary of State Olcott to show cause why the name of Justice Charles E. Hughes should not be certified to go on the ballot as a candidate for the Republican nomination for President was issued today by the Supreme Court of Oregon presiding in which to show cause.

The suit was filed by Wallace McCamant of Portland, who recites that on April 14 he filed an authenticated petition signed by 151 registered Republican electors of the State of Oregon praying that the name of Hughes should go on the ballot.

"Trust" Preamble Is Adopted in Senate

WASHINGTON, April 17.—Senator Martine's preamble to a resolution directing inquiry into the rising price of gasoline, which characterized the Standard Oil Company as a "trust," was adopted by the Senate. The body of the resolution calling upon the Attorney-General to investigate, was passed two weeks ago. The preamble was held up on discussion of whether it was proper for the Senate to brand the company as a trust in the light of the Supreme Court dissolution decree.

Brandeis Appointment Considered; No Action

WASHINGTON, April 17.—The nomination of Louis D. Brandeis to the Supreme Court was considered again today by the Senate judiciary committee without action. Another meeting will be held Wednesday. The contest is very close and there are indications that the nomination may be reported to the Senate without recommendation, leaving the next step in the fight for the Senate itself.

STATISTICS SHOW LENGTH OF LIFE

Women Live Longer Than Men Declares Eastern Professor.

WASHINGTON, April 17.—Women live longer than men. That is, statistically, they do.

This and many other interesting things are shown in a very legible manner in a report of the United States Census Bureau, which is being distributed to the public. The report is the first of its kind ever prepared in this country, and is soon to be issued by Director John L. Flowers of the bureau of Census, Department of Commerce.

Many vital questions affecting the life of the race are dealt with in this rather remarkable compilation of averages, which show death rates and expectation of life at all ages for the population of

the six New England states, New York, New Jersey, Indiana, Michigan and the District of Columbia on the basis of the population in 1910 and the mortality for the three years 1909, 1910 and 1911.

FIGURED PROOF.
Expectation of life, at birth, in a stationary population—that is, one in which the birth and death rates are equal and were the same from year to year, and in which there was no immigration or emigration—would be the same as average age at death, which is calculated by totaling the ages of all deceased persons and dividing the result by the number of deceased persons.

According to these tables the average expectation of life, at birth, for males is 45.5 years; for females 47.5 years; for white males, 50.2 years; for white females, 52.6 years; for native white males, 50.8 years; for native white females, 54.2 years; for Negro males, 31.1 years; and for Negro females, 37.7 years. Females are thus shown to live longer than males to the extent of more than three years, and in the case of the native whites and Negroes, more than 4 years.

The expectation of life at the age of 1 is considerably greater than at birth, being 56.8 years for native white males and 58.5 for native white females, and reaches its maximum at the age of 2, when it is 57.5 for the former class and 59.1 for the latter. At the age of 12 the average native white male's expectation of life is 59.2 years; at 25 it is 55.4 years; at 40, 53.3 years; at 50, 51.2 years; and at 60, 49.6 years. Similarly, at the age of

the average native white female's expectation of life is 52.8 years; at 25 it is 48.8 years; at 40, 46.3 years; at 50, 44.3 years; and at 60, 42.5 years.

The enormous waste of infant life which still goes on, although medical science has done and is doing much to arrest it, is shown by the exceedingly high death rates which prevail among infants under 1 year of age. Of 100,000 native white babies born alive, 4955, or almost 5 per cent, die during the first month, and 12,002, or 12.0 per cent, die within one year.

GIRL'S CHANCE BEST.
The girl baby's chance of life is considerably better, the death rate among native white females during the first month being 3511 per 100,000 born alive, or less than 4 per cent, and during the first year 10,460 per 100,000, or nearly 10.5 per cent.

The relative healthfulness of city and country is strikingly shown by the tables, according to which the death rate among white males under 1 year of age in cities having 5000 inhabitants and over in 1909 and in cities of 10,000 and over in 1910 and 1911, is 13,350 per 100,000 born alive, whereas in smaller places the corresponding rate is only 10,425 per 100,000, or 23 per cent less than the rate for cities. A similar difference prevails with respect to white females under 1 year of age, for whom the death rate in cities is 11,123 per 100,000 born alive, while in rural localities it is only 8497, or 24 per cent less than the urban rate.

INVENTOR WINS; THEN SLAYS SELF

Strain of Long Labors Is Too Much for Henry Hillberg.

Crushed by having suddenly succeeded in having perfected an invention upon which he had been working for years, after a long and arduous battle with his own mind, Henry Hillberg, an inventor, hanged himself in a grove of eucalyptus trees at Lafayette and Crockett streets, near Piedmont. The body was found by J. A. Henderson and A. C. Musser while out for a walk, and was identified at the morgue by Mrs. Hillberg.

Hillberg lived at 237 Eighth avenue, San Francisco, and had his laboratory and workshop at Ninth and Bryant streets. Friday morning he told his wife he had at last perfected his invention, which he believed would be used in every laboratory in the United States. He left San Francisco for Oakland to tell some friends of his success, and in a single year the government through this plan adopted a saving of \$25,000.

Lighter Paper Is

Plan for Saving

WASHINGTON, April 17.—The department of agriculture, in a circular issued today, recommends the use of lighter weight papers to relieve the present stringency in paper making materials. Many publishers and printers have adopted the plan, it is said. In a single year the government through this plan adopted a saving of \$25,000.

Crowds Enjoy Idora's Sandy Beach Amusement Park Bathers' Mecca

DOROTHY MONAHAN (LEFT) AND ORA THORING PLAY IN THE SILVER SANDS OF IDORA'S NEW INLAND BEACH.

Kiddies and elders alike put their mark of approval on the new inland beach just completed at Idora Park yesterday and Saturday. On both days the silvery sands were crowded with happy pleasure seekers. Several hundred of the grown-up swimmers and equally large number of the tots waded in the special children's section.

The first two days demonstrated that the new beach is to be wind proof. The combination of scenic background, wind and warm water made the new beach tropical in some as well as appearance yesterday. Even the thinnest of bathers were compelled to hunt the shade during the afternoon. The beach

umbrellas were popular and the shade of the wall inviting. The Sunday crowd on the beach in the crowded pavilion in which Forman and his band appeared, and around the amusements surpassed that of Saturday.

Moose Lodge of Oakland Installs

Officers for the coming year have been installed by Oakland Lodge of Moose. Past Dictator Harry B. Andrews was installed officer and was assisted by Past Dictator A. B. Moffitt, J. Traeger and S. H. Wentworth and by the following members: I. H. Clay, Judge George Samuel, W. H. L. Hynes, J. J. Rosborough, John F. Mullins, J. H. Brown and Arthur Barton. J. B. Elder, J. Sergeant-at-Arms, Past Dictator A. Donovan was presented with a handsome diamond ring, Secretary W. J. Hamilton making the presentation on behalf of the lodge.

The officers installed for the coming year are as follows: Dictator, A. Vander-Nail; vice-dictator, E. Barbeau; treasurer, Daniel Reed; orator, A. C. Swallow; secretary, W. J. Hamilton; inner guard, I. Spiro; outer guard, E. M. McKee; trustees, W. J. Bacon, W. J. L'Heureux and W. J. Storm Jr.

Oakland Jovians to Entertain Visitors

Oakland's Jovians are to entertain in honor of the San Francisco members of the electrical men's order next month, according to plans completed today, when sub-committees outlined the details of the smoker for the visitors. The Jovians, an organization of electrical men in the United States, has strong branches both in Oakland and San Francisco. The smoker will take place in the Commercial Clubrooms and will be planned by a committee consisting of Hugh Kipling, George King, Julius Gensler, Lee Brown and Carl Hardy, George Furness and Albert Neylan.

Fruitvale Man With British African Force

FRUITVALE, April 17.—Roy Frederickson, of 1601 California avenue, a former member of the state militia and a member in more than a year fighting with the British forces in Africa. Frederickson, who is 32 years of age, left home two years ago on a tour around the world. His parents learned a year ago that he had joined the British expeditionary force in East Africa. In his last letter, which was edited by the censor, he wrote: "I am sure that the fighting in Africa will soon be over because I do not think that the enemy has a chance at all and the thought they realize it the better for them."

Finds Gold Ring She Lost 23 Years Ago

SEAFORD, Del., April 17.—A little more than 23 years ago Mrs. George E. M. Benge lost a plain gold band ring with her initials in it. All efforts on the part of several members of the family and neighbors to find it were futile. The other day while Ethel, her nine-year-old daughter, was playing in the yard with a group of children, she noticed something shining in a spot where many years ago she had been playing. When she took it to her mother it was quickly recognized as the ring lost nearly a quarter of a century ago. In the time the ring lay in the yard the ground had been plowed and tilled hundreds of times. The ring was in perfect condition and not the least worn.

Believe Arrest May Be Fresno Murderer

Fresno detectives will be in Oakland tonight to identify William Carson, held for burglary at the Dan Dooley home in Eighth avenue, as Jack Brennan, wanted in Fresno for attempting to kill "Kid" McKay some months ago. "Faint marks on the body of Carson led Inspector Richard McSorley to suspect him of being Brennan, as the marks correspond with those described in a circular, asking the arrest of Brennan. Brennan and McKay were both ex-convicts, and were involved in a fight when the attempt at murder occurred.

Rain Falls in North; Expected Here Tonight

SAN FRANCISCO, April 17.—Rain caused by a storm over British Columbia fell in Northern California this morning, coming as far south as Eureka on the coast and Red Bluff in the interior. At Eureka three-quarters of an inch fell during the night and Red Bluff had .02. The showers were general in Oregon and Washington.

The direction of the wind indicates that all of California may expect showers either tonight or tomorrow evening, and at this time rain will be extremely beneficial.

MOB KILLS SOLDIERS. AMOY, China, April 17.—The foreign office of Changchow-Fu, Fukien, reports that thirty-two soldiers of the Northern army and upward of forty civilians not belonging in that locality have been killed by a mob. Disturbances also are reported in Hancheng. Amoy is quiet, but the streets are heavily patrolled.

CHICKEN DINNER FOR CHURCH. Under the direction of the Pastors' Aid Society of the Union-street Presbyterian Church, a chicken dinner will be given tomorrow evening at 6:30 o'clock in the church parlors. Many members of the congregation will attend.

An Aid to Digestion. When you feel full and stupid after your meals, frequently have sour stomach and eructations you should take one of Chamberlain's Tablets immediately after dinner to aid digestion. For sale by Good Docs. Drug stores.—Advertisement.

Mrs. Toohig Regains Custody of Her Son

Change of heart on the part of Mrs. Nevada Toohig, who a year ago abandoned her infant son and fled to Los Angeles with her husband, today resulted in her again obtaining custody of Thomas Toohig Jr., through a writ of habeas corpus issued by Superior Judge Ogden.

Mrs. Amy L. Ely, maternal grandmother of the child, has had him in her charge since the return of her daughter and her son-in-law from the north and their subsequent hearings in the Superior Court. The father and mother were each placed on probation for five years. The grandmother commenced proceedings to have the child declared abandoned and placed under her guardianship, but this action may now be dropped.

Shackleton Aide on Way to Lead Rescuers

SAN FRANCISCO, April 17.—En route to London, where he says he will take charge of an expedition to rescue Lieutenant Robert Shackleton, famous explorer, believed in danger somewhere off the South American coast, Sir Douglas Mawson arrived in San Francisco today on the liner Ventura. He will leave immediately for New York.

Mawson was Shackleton's aide on several previous exploring trips, including the one which resulted in the discovery of the magnetic pole.

Drinks Lysol, Is Saved by Whisky

Frantic Husband Gives Wife Quart

LOS ANGELES, April 17.—Because she was able to drink a quart of whisky at once, the first time she ever tasted the liquor, Mrs. Elizabeth Cheeseman's life is saved today. Despondent, Mrs. Cheeseman attempted to end her life yesterday by drinking Lysol.

"What shall I give her?" shouted her frantic husband over the phone to the receiving hospital, twelve miles away.

"All the whisky you can," was the answer. There happened to be a quart of the liquor in the house and by the time medical aid arrived Cheeseman had administered the entire contents of the bottle to his wife.

Santa Clara Team to Play in Islands

SAN JOSE, April 17.—Following the announcement that the Santa Clara university baseball club would sail on the steamer Sierra June 13 for Honolulu for a series of games with island schools, the Santa Clara team today on making a "clean-up" of the Hawaiian ball teams. They don't think there is anything in Honolulu fast enough to reel them.

'Carranza' Jailed With 'Villa' in L.A.

But They Are Not Bane of Uncle Sam

LOS ANGELES, April 17.—Villa and Carranza are in jail here today. They occupy adjoining cells. Despite the fact that they fought nearly to the death with knives over the Mexican question, they are not the celebrities in whom General Funston is very much interested. They are Augustus Villa and Rodriguez Carranza.

He Dines Well, and 'House' Stands Bill

SAN JOSE, April 17.—A well-dressed man walked into a popular downtown restaurant last night and ordered the following meal:

Manhattan Cocktail
Oxtail Soup
Tenderloin Steak
Shoe-string Potatoes
Ice Cream
Coffee

He received a check for \$1.75 from the waiter and walked to the cashier. "You'll have to charge this to the city," said the stranger.

"The city pays for no meals here," said S. D. Zaro, the proprietor.

"Well, to tell the truth, I was hungry," said the man. "I wouldn't go out and take anything that didn't belong to me and I know I have done wrong in getting this meal. If you will call a policeman I will wait and have him arrest me. I insist that you do so."

Zaro refused to have the man arrested and took down a box of the best cigars and tendered one to his enforced guest. The stranger lit the cigar, thanked the proprietor and left the restaurant.

MOUNTAIN LIONS MENACE ANGLERS

Santa Clara Hills Are Infested With Fierce Animals, Say Wardens.

SAN JOSE, April 17.—Fishermen who whip the remote Santa Clara country streams this year are advised today to go armed on account of the unusually large number of mountain lions reported by six state game wardens who have been patrolling the hills seeking to prevent illegal fishing before May 1. Many tracks were seen around the remains of livestock and deer.

Two years ago a lion fatally wounded two boys swimming in Coyote creek and killed a Morgan Hill school teacher who came to their aid. At that time conditions were similar to the present state of affairs. A big lion, one of the largest ever seen around here, was shot near Hamilton Friday by Samuel Parks, a local lumber man.

getting this meal. If you will call a policeman I will wait and have him arrest me. I insist that you do so."

Zaro refused to have the man arrested and took down a box of the best cigars and tendered one to his enforced guest. The stranger lit the cigar, thanked the proprietor and left the restaurant.

THE LABOR-SAVING
ALL GAS LAUNDRY
Wash day can no longer be referred to as "blue" Monday, for the use of Gas as fuel has changed the once-dreaded and often-postponed task to one of everyday, pleasurable routine. The housewife now has the time-saving Gas Iron—the convenient Gas Laundry Stove—the ever-ready Automobile Gas Water Heater with its pure, abundant supply. With a heater connected to your house pipes, you get unlimited hot water with no more attention than you give your cold water supply—a simple turn of the faucet. And it's scalding hot and there's plenty for the laundry and every other part of the house at the same time.

The heater is self-operating and burns gas only while you are drawing hot water, and automatically shuts off the gas the moment the faucet is closed.

The best understanding of the time and money-saving qualities of these appliances is to see them demonstrated in operation.

BERKELEY AND ALAMEDA NEWS OF THRIVING EAST-BAY CITIES

WORK FOR CHAIR OF CRIMINOLOGY

Summer Police School May Have Permanent Sequel at University.

BERKELEY, April 17.—That the summer session of the police school at the University of California may serve as the seed for a regular department of criminology in the university itself is the aim of the faculty of the school. The school, which is now in its second year, has been successful in its work, and the faculty is confident that it will be able to establish a permanent department of criminology in the university.

It has been urged that there will be found in the school a nucleus of the kind of instruction in this line, and that the summer session will be a permanent feature of the university. The school is now in its second year, and the faculty is confident that it will be able to establish a permanent department of criminology in the university.

CRIMINAL LAW COURSE. Professor J. H. H. of the department of jurisprudence at the university will offer a course in criminal law. This will follow in the main the series of lectures which he gave in the summer session of the Berkeley police department. The course will be given in the department of jurisprudence, and will be a permanent feature of the university.

CRIMINAL LAW COURSE. Professor J. H. H. of the department of jurisprudence at the university will offer a course in criminal law. This will follow in the main the series of lectures which he gave in the summer session of the Berkeley police department. The course will be given in the department of jurisprudence, and will be a permanent feature of the university.

COURSE TO CORRECT STAMMERING AT U. C.

FERKELEY, April 17.—Mothers and teachers who want to know how to cure children of stammering, stuttering and indistinct speaking are to be given aid by the University of California. A course on "Defective Speech Correction" is to be provided in the approaching summer session of the university, from June 26 to August 5. It will be given by Mrs. Mabel Farrington Gifford, of the Department of Pediatrics, who is in charge of the speech defect clinic conducted by the University of California Medical School.

Mrs. Gifford is able to show mothers and teachers that defective speech can often be overcome without medical or surgical methods, but by simple ways of teaching and practice. Trained at the Natural Speech Institute at Buffalo, Mrs. Gifford spent two years assisting Dr. H. C. Brainerd, Professor Neurology in the Los Angeles medical department of the University of California, with patients who needed to have defects of speech remedied, and she also did defective speech correction for pupils brought to Dr. Leonard Metcalf, medical inspector for the Los Angeles public schools. She spent 1913-14 in charge of defective speech work in the Minnesota State School for the Feeble-Minded, at Fairbault, Minnesota, meanwhile lecturing at the Minnesota State Normal School at Mankato. After studying with Professor and Mrs. Scripture of Columbia University in phonetics, the physiology of speech and abnormal psychology, she returned to San Francisco in 1915, and since then besides being in charge of the speech defect clinic in the children's department of University of California Hospital, she has conducted clinics in the Oakland and San Francisco public schools. She had charge of the speech defect booth in the Palace of Education during the last two months of the exposition—under the auspices of the University Medical School.

Her lectures on how to establish proper habits of speech, and on the correction of stammering, stuttering and defective articulation will be given daily during the summer session at Agriculture hall on the university campus, and she will conduct clinics there Tuesday and Thursday afternoons and also hold a clinic Saturday mornings in the University museum auditorium, adjoining the University of California Medical School in San Francisco, so that to make the most of the demonstrations with children's cases from the department of pediatrics of the University of California Medical School.

HIGH TRIBUTE IS PAID TO HILGARD

Wickson Praises Him as Pioneer in Investigation of Soils.

BERKELEY, April 17.—What were the really original contributions to knowledge and to the welfare of the world came from the brilliant career of Eugene Woldemar Hilgard, for a generation head of the college of agriculture and the agricultural experiment station of the University of California, who died January 8, 1916.

This is the question discussed by E. J. Wickson, professor of horticulture, entomology, in the University of California, and H. H. Longstrech, professor of agricultural chemistry, emeritus, in the University of California, in long biographical articles published in the last issue of Science, the official journal of the American Association for the Advancement of Science.

That Professor Hilgard was the first scientist who ever interpreted the results of soil surveys in terms of the fertility and crop production is pointed out by Professor Longstrech. He declares that Professor Hilgard was the first to maintain that the physical qualities and chemical character of a soil go a long way in determining its fertility, and to maintain that the chemical, physical, mineral and biological character of the soil are in any event certain to be increased.

CO-OPERATING WITH COMMUNITIES. They urge that scientific men use every opportunity to make clear to communities and to advances in general the direct relation of science to the welfare of the people. They declare that the progress of science and the progress of the world are inseparable, and that the progress of the world is the progress of science.

SEEKING AID FOR SCIENCE RESEARCH

Possible End of War Shown to Offer Many Grave Problems.

BERKELEY, April 17.—What is the outlook for scientific research after the war? This question is raised by the Pacific Coast sub-committee on research, appointed a year ago by the committee of one hundred on research of the American Association for the Advancement of Science. Their report appears in "Science" for March 31, over the signatures of Professor J. H. H. of the University of California, chairman, and Professor W. W. Campbell of the Lick Observatory of the University of California; Dr. E. B. Coker, the chemist, one of the most distinguished scientific graduates of the University of California, and Professor F. H. Franklin, the chemist, and Professor D. H. Campbell, the biologist of Stanford University.

They raise the problem whether the impoverishment of governments will retard the support of science in Europe, or whether the wonderful demonstration which war has given of the efficacy of scientific methods will induce governments to maintain scientific research at a sacrifice of something else. They declare that the progress of science and the progress of the world are inseparable, and that the progress of the world is the progress of science.

Couple Celebrate 50th Anniversary

Mr. and Mrs. J. R. Doyle of Menlo Feted

BERKELEY, April 16.—The golden wedding of Mr. and Mrs. James H. Doyle of Menlo Park was celebrated yesterday at the home of their son-in-law and daughter, Mr. and Mrs. J. W. Flinn, in Berkeley. The celebration was attended by all of their children and grand-children, except the youngest son, who is at college in Spokane.

Mr. and Mrs. Doyle, who were both born in Frampton, Quebec, came to California in their youth, and were married 50 years ago at the Catholic church of San Francisco. They now reside on the present site of the Palace Hotel. They established their residence in Menlo Park, where they have since resided.

The reception yesterday was for members of their family and a few old friends, but many telegrams and congratulations and gifts of flowers were received, among them a valued gift of a gold watch from Mr. and Mrs. J. W. Flinn, of Menlo Park, which Doyle has been a member since 1874.

The children of the couple are Mrs. J. W. Flinn, Mrs. F. B. Brady and William A. Doyle of Menlo Park, James F. Doyle of Spokane and Mrs. J. W. Flinn of Berkeley.

LAND PRICE MAY BE PAID BY BOARD

Alameda Educators Said to Have Agreed With Owner.

ALAMEDA, April 17.—It is reported that the recent condemnation proceedings against the Marshall property are to be dismissed by the city council tonight on request of the Board of Education. The board has reached a compromise agreement with the owner. The Marshall property is a part of several parcels which are to be incorporated in the high school site. The owners asked \$14,000. The board offered \$13,000, following a long deal. The board asked the city council two weeks ago to have the city attorney start condemnation proceedings. The city attorney is now preparing papers. It is reported that the board is to take the property for \$14,000.

TELLS COIN VALUE OF SCHOOL DAYS

Berkeley Superintendent Presents Arguments to Help Boy Pupils.

BERKELEY, April 17.—In an effort to impress upon parents of this city the need of keeping their children in school as long as possible and upon the children themselves the advantages to be gained by continued attendance at school, Superintendent Morris C. James has commenced a campaign which opens with the distribution of a folder of interesting statistics published by the printing department of the Washington school. The brochure is made up of facts and conclusions from investigations made in this city. Brooklyn and elsewhere on the salary of children who leave school at different years. "It pays to continue your studies," is the practical slogan which Superintendent James has adopted.

Statistics show that pupils leaving school at eighteen years of age receive \$10 a year more in their nineteenth year than those who left at fourteen years of age. The total salary of children who average from fourteen to twenty-five years of age, by the boy quitting school when he is eighteen, amounts to \$137.50.

LAST DANCE AT FERNISSE CLUB

Season's Series to Close With May Party at Pretty Clubhouse.

ALAMEDA, April 17.—The last of a series of Fernisse Improvement club dances will be given at the clubhouse of the club on May 1. The final affair will be the fourth of a series of successful social evenings the club has given during the winter and spring season. The last dance was a masquerade and many striking and attractive costumes were worn by the dancers.

The club membership includes a number of social and business people who have their homes in the Fernisse district. The clubhouse is a building of attractive design and is well equipped for social as well as business purposes.

CRIMINAL LAW COURSE. Professor J. H. H. of the department of jurisprudence at the university will offer a course in criminal law. This will follow in the main the series of lectures which he gave in the summer session of the Berkeley police department. The course will be given in the department of jurisprudence, and will be a permanent feature of the university.

THREATENED, SAYS RICHMOND PASTOR

Says Redlight Law Activity Is Cause of Many Letters.

RICHMOND, April 17.—Rev. P. E. Peterson, pastor of the First Methodist church and president of the Good Government League, stated today that he is being threatened daily by letter and by phone calls from people who have been interested in the redlight law. Peterson has received notices from the owners of redlight property that the courts will be asked to act under the abatement act. Several of the houses have already closed, and two which have been closed have been closed by the district attorney's office to show cause why action against their places should be taken.

"I am being credited for stopping the various gambling games and many other things," Peterson said. "I have been threatened by letter and by phone calls from people who have been interested in the redlight law. Peterson has received notices from the owners of redlight property that the courts will be asked to act under the abatement act. Several of the houses have already closed, and two which have been closed have been closed by the district attorney's office to show cause why action against their places should be taken.

WILL VISIT SUPPLY SOURCE. RICHMOND, April 17.—Accompanied by citizens of the city, the Richmond Water Commission will visit the water supply source of the city, the Snow Creek, today. The commission will be accompanied by the city engineer, Mr. J. W. Smith, and the city attorney, Mr. J. W. Smith.

PREPARE FOR EASTER. RICHMOND, April 17.—All the churches of Richmond are planning for an unusually large Easter attendance next Sunday day to a special campaign this week for funds to be used for the benefit of the city. The churches are planning for an unusually large Easter attendance next Sunday day to a special campaign this week for funds to be used for the benefit of the city.

PLAN MEMBERSHIP CAMPAIGN. RICHMOND, April 17.—A special meeting of the Richmond Knights of the Ku Klux Klan will be held at the Pythian Castle tomorrow night. The meeting will be for the purpose of planning a membership campaign for the coming year. The meeting will be for the purpose of planning a membership campaign for the coming year.

START NATIONAL GUARD. RICHMOND, April 17.—Twenty-five young men of Richmond have signed up to enter a National Guard company. The company is being organized by Charles J. Barry, a local business man. The company is being organized by Charles J. Barry, a local business man.

GRANDMOTHER KNEW There Was Nothing So Good For Congestion and Colds as Mustard.

But the old-fashioned mustard plaster burned and blistered. You can now get the relief and help that mustard plasters gave, without the plaster and without the blister.

MUSTEROLE does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it will burn, yet does not blister the tenderest skin.

Just massage MUSTEROLE in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

And there is nothing like MUSTEROLE for a sore throat, Bronchitis, Tonsillitis, Croup, Sore Neck, Asthma, Neuritis, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Colds, Stomach, Colds of the Chest (it often prevents Pneumonia). Use your drugs, in 25¢ and 50¢ jars, and a special large hospital size for \$2.50.

U. C. Senior Wins Prohibition Debate

BERKELEY, April 17.—Gerald B. Wallace, a senior in the school of jurisprudence at the University of California, was awarded a first prize of \$5 in the annual prohibition debate contest held at the University of California. Wallace was the only student to win the prize.

ALAMEDA PLANS FOR MAY FESTIVAL

Season of Outdoor Events Opens; Great Crowd at Beaches.

ALAMEDA, April 17.—The passing of the field meet, kite day and Moose carnival all April affairs, does not mean a cessation of outdoor events in Alameda, but simply indicates the opening of the Alameda outdoor season. Following fast on the heels of these three events will come the May Day festival of the schools and playgrounds, which 5,000 children are to take part. There will be May pole dancing and drills, field drills and a variety of other games.

The Alameda Yacht Club has leased Eagles hall for the masquerade on April 25, which marks the opening of the season. The masquerade will be a great success, and will be a great success.

Surf Beach Park is also to have a big opening in the future. This undertaking is a quarter million dollar annual event and bathing enterprise. The crowds at the beaches yesterday were estimated at 10,000. The crowds at the beaches yesterday were estimated at 10,000.

ATHLETICS
ROWING
YACHTING

Harry Bramer Shows Plenty of Confidence

Newcomer Taking a Chance in Facing Frank Malone

[illegible]

The Oakland club has turned back J. Burg and Newt Randall to Milwaukee. Both players were here on option until the 15th of April, when Elliott decided that he would not need them. Of the famous winter deal wherein the Cubs bought four players from the Brewers, only one man actually was transferred, that being "Jap" Barbeau, the midge third-sacker. Pitcher Tom Dougherty refused to report, while Outfielder Randall and Infielder Burg were tried in the scales and found wanting. The acquisition of Shortstop Joe Berger, who was reported Wednesday, made Burg's position untenable, while Randall's job was taken away from him by little Bill Lane, a Willie Zimmerman of Brooklyn.

There is a chance that both Randall and Burg will land positions in the Northwest. They are both experienced players, and probably have not shown their full ability yet.

ITALY 11, CALIFORNIA 11.
The Bank of Italy and the Bank of California played a tie game. The Bank of Italy was leading, 11 to 7, in the ninth inning when the California boys fouled their batting eyes and evened up the score. Durkin and Glumahl were the stars of the day. The score: R. H. Bank of Italy.....11 5 Bank of California.....11 11

*Thunderer, Futurity Winner.
Favored in Kentucky Derby*

LOUISVILLE, Ky., April 17. — For the first time in twenty years, there is a winner of the Eastern Futurity, the richest of all two-year-old races in this country, this fall to be the favorite in the Kentucky Derby.

The date of the running of the \$150,000 classic event is set for Saturday, May 13. While the racing season is still in its infancy, changes can come in the training of horses for a great race that early in the season. The favorite for the Kentucky Derby, the favorite for the derby will be H. P. White.

On account of his relationship to that great filly, they realize that she, being such a phenomenal performer, her brother, though his record is as yet unimpaired, is not a sure thing to win. Her counterpart, coming so early from the same stable, it will be recalled, however, is the son of the great mare, Tullahoma sent to the races a great filly in Tulla Macburn, and in another year she will be the favorite for the race, which was one of the most brilliant three-year-olds that ever has raced in this

It was the first Kentucky winner, Proctor Knott, that in 1955 was one of the warmest odds-on favorites that ever went to the post in a Kentucky derby race. There have since then been Kentucky winners among the Kentucky derby nominations, but from Proctor Knott's year down to Thunderer's time no fururity winner entered in the Downs' big race had been considered by a majority of enough clams over the other entries to be the favorite in the big event at any stage.

Professor Knutt was regarded as a certainty in his derby race, but in its aftermath he was beaten out in that event by the 10 to 1 shot, Spokane, in the second round. Derby of the 10 to 1 winning time was 2:14.5 and a half in distance. This is related to remind the horse historian that many of the things is, and that's spite the prestige of Thunderbolt, a two-year-old, he has been going on with the same vigor to race against him now before he can, like his kinsman, Regret, be enrolled as the owner of a Kentucky horse.

Brilliant in his final last season, Los Angeles, April 17, Eddie O'Donnell, winner of the Donville race at Corona, California, in a 160-mile motor derby yesterday at Ascot Speedway here. His time was 2:17.05, and he was beaten by a 10 to 1 shot, Spokane, in 2:27.77 in 5 and Houghton Hughes finished third 2:45 time was 2:18.25.

The two developed a rivalry between O'Donnell and Pullen for place as the fastest. The two drivers alternated in the lead.

when Regret won this event it was the first time since 1926 that a horse from this year, inasmuch as the forty-nine other entries in the race not only entered the race but also were bred in this country, but include a high-class class of horses, including some of the best bred performers. These also, this season, are not, like so many other previous years, the last of the season, but the best year-olds of the greatest racing tribes of both England and America. There are a few who think that on account of Thunderer being a full brother of the Kentucky Derby winner of 1935, Kentucky Derby is hoodwinked in that when O'Donnell stopped to change four horses, he had a full 120 lbs. of weight which he had to carry. O'Donnell forged into first place and held it until the last lap when he was overtaken by Kingman, ran third throughout the race. Joe Thomas, who finished second in the Kentucky Derby, was fourth in this forty-first lap because of engine trouble. The Kentucky Derby winner, Gallant Fox, dropped out in the fourteenth lap. The other four entrants were flagged.

At Golden Gate Park, Kentucky Derby, 5-3-35. Steel and Kelly; Reeves and Suhr.

American Smoke—"Bull" Durham

office of Oakland, Cal., under act of Congress March 3, 1879.

MONDAY, APRIL 17, 1918.

STEEL PREDICTS PROSPERITY.

Notice has been issued by the manufacturers of railway rails that they will not accept orders for rails at \$28 a ton for delivery after May, 1917. This has been the base price for rails to American roads since 1902. The price after May of next year is predicted to be \$32 a ton.

Anticipating this notice of raise in prices, railway managers within the last few weeks have placed orders for over one million tons of rails at the present price. Figures compiled by the Railway Age Gazette show that for the first three months of 1916 orders were placed for 1137 locomotives, as against 181 for the corresponding period of 1915; for 38,169 freight cars, against 8943 in 1915, and 537 passenger cars, against 696 in 1915.

It is apparent that the steel manufacturers think prosperity in the iron and steel industry will extend beyond the settlement of the European war and will last for at least five or six years. Knowing the situation the railways are in, they have decided to charge them about fifty million dollars above the usual cost for the estimated necessary purchases during the five years following May, 1917.

The record-breaking purchases of new equipment by the railways is accounted for by two causes. In the first place, the dull years of 1912, 1913 and 1914 required the most rigid economy in operation and left very little money for the purchase of new equipment. Most of the railways were so hard pressed as not to be able to keep their roads and rolling stock in a reasonable state of repair. Now that the war prosperity has resulted in increased net earnings they must bring their equipment up to the state of efficiency which would have prevailed had not it been necessary to neglect it. The second reason is that the roads were unable to transport satisfactorily the crops of 1915, a fact which is not accounted for by the extra demands for the shipment of war supplies alone, but that demands of traffic in the harvesting season were in excess of available facilities had not abnormal demands been made upon it. There is no reason to believe that the output of the soil will be less in the future than in 1915. With scientific methods now being introduced agricultural production will gradually increase. Further, the railways and manufacturers anticipate that Europe will require American products for several years after the war is over, until normal conditions are restored.

The steel manufacturers have been neglecting somewhat the demands of the domestic trade that they might fill more quickly foreign war orders. On the other hand domestic industry generally, having been sluggish for three years on account of unfavorable economic and political policies, has hesitated to start new enterprises on account of the high prices of materials. It appears that so far as the steel industry is concerned, prices are to be advanced rather than lowered.

CANAL REOPENED.

As predicted a month ago, the Panama Canal was reopened to commerce Saturday. For the second time the primary purpose for which it was constructed, serving of the world's maritime trade, has been taken up. For seven months it has been closed while the army engineers were clearing away the great slides in Culebra Cut.

In one respect the removal of these obstructions has been almost as noteworthy a performance as the original digging of the canal. Great masses of earth moved into the channel in this cut from either side and by their weight forced the bottom of the canal to bulge upward, thus obliterating the original excavation. The speed with which the slides were removed demonstrates, as nothing else could have done, the facilities and capacity for freeing the canal of earth obstructions. With water transportation to each side of the slides, the great dredgers and mud barges were able to accomplish what it would have taken steam shovel and railway three or four years to have done. In meeting this emergency General Goethals has developed methods and apparatus which will speedily conquer any other slides that may occur.

Shipping may consider that the canal will never again be long closed by natural physical causes in the canal zone. The worst has come and been corrected. While dredging away the

obstruction in Culebra Cut the canal administration has at the same time started measures calculated to prevent future slides on an elaborate system of surface and underground drainage.

Shipping companies will now rearrange their schedules of freight rates and start new vessels in the Pacific-Atlantic trade as rapidly as their desire to profit from war trade in the Atlantic will permit. We believe it is safe and advisable for the shipping companies and business men, particularly of this port, to prepare at once to meet the conditions long ago predicted to follow the permanent opening of the canal. The influence of the war on the natural movements of world commerce is to be only temporary and the wise men of business will seek advantages that will be permanent.

VICTORY.

For San Francisco, Oakland and all the other cities in the bay district, tomorrow is a day for retrospection, if not celebration. Ten years ago our neighbor across the bay was almost wholly destroyed, so far as the physical city was concerned. For a brief time the spirit of the people was stunned by the catastrophe and other communities of the world began to predict we had suffered a blow from which we could never recover.

But the dismay was only momentary. The brave heart of the builder was supreme against all fear and his confidence was indestructible. Today we see how well we have "recovered." We say "we," because the spirit that reconstructed San Francisco is the spirit of California, of the West.

We have done more than to transform a waste of debris into a great, new city within an incredibly short time. We have done much else. We have celebrated, for the world, a great world accomplishment, and have done it in more magnificent style than the world had ever known. We have been host to the peoples of every corner of the earth.

We have created new ambitions and new hopes. Not satisfied merely to replace the old, we have envisioned a greater destiny and planned a bigger part in the affairs of the world. Such is the fruit of developing extra energy under the lash of misfortune.

And as we survey the achievements of the past decade, we become fully conscious of our wonderful capacity. We are inspired to go onward, to complete fellowship in the great ports of the world. We shall be known as the cities and the State that never quit, a people who transform evil into good.

PREPAREDNESS FOR CHARLESTON.

Mr. Josephus Daniels of North Carolina, Secretary of the Navy, made the following naive statement before the Rivers and Harbors Committee of the House the other day:

In view of the efforts we are making along the line of preparedness I consider the deepening of the channel leading from the Charleston (S. C.) harbor to the navy yard at that place of great importance and of an urgent character.

This recommendation exposes the nature of the efforts toward preparedness Mr. Daniels is most diligently directing. He calls the preparedness sentiment to his support when seeking new appropriations to employ men in a Southern State port on a navy yard that a former head of the navy recommended be closed to promote efficiency, save expense and, in part, for strategic reasons.

But Mr. Daniels ignores the requirements of sensible preparedness when he cuts eleven million dollars off the estimate for necessary reserve naval ammunition, recommending only a petty two million appropriation; when he rejects suggestions from the naval experts for a naval aeroplane service, and when he disapproves enlisting the required number of sailors to man our fighting ships, preferring to have half of them in yards undergoing costly, but unnecessary overhauling. Such performances may be expected from the man who opposed the recommendations for a general staff of the navy because he feared that if one was created he "might just as well go home."

A DANIELS "STRATEGY BOARD."

Apropos of Mr. Daniels' opposition to a naval general staff, referred to above, the sub-committee on appropriations in the House has approved a rider to the general naval bill which provides for a statutory board of strategy of the navy. It is to be headed by a full admiral who will have fifteen expert assistants. If the rider is passed it will enact into permanent law substantially the present regulations governing the office of naval operations.

The effect will, it is claimed, be more completely to divorce the strategy of the navy and the military functions of the department from the office of the civilian secretary. Mr. Daniels is said to be in favor of this plan. In fact, the proposed legislation will give statutory approval to the regulations that have been issued by Mr. Daniels since he assumed office. Its real object is to make it difficult for some future secretary to alter the regulation Mr. Daniels has promulgated. Until a full text of the proposed rider is at hand it would be unfair to criticize the plan merely because Mr. Daniels has done so much—because his white pajamas, posing with marines and sailors, muzzling of officers, etc.—to lower the morale of the navy. But we cannot feel any confidence that it follows the ideas advanced by Admiral Fiske and other distinguished naval officers.

NOTES and COMMENT

Down at Calexico they had two candidates for the office of city clerk, and both, from the standpoint of nomenclature, were gentlemen of color. One was Green and the other was Brown.—Holtville Tribune.

The war news is to the effect that a young woman was taken to the jail in Munich and compelled to wipe the rouge from her face. They are great over there for their effective economies in the necessities of life.

Mrs. Josephine E. Leslie of Berkeley and William J. Evans of Mojave were principals in a wedding ceremony quietly celebrated Tuesday evening. The groom is the editor and founder of the Mojave Press.—Bakersfield Californian.

The Humboldt Standard heads quite a long editorial, "Bacon Dinner." It referred to the famous eat given by Ambassador Bacon to T. R., Elihu Root and others, though at first blush it appears to be a dissertation on that dish so popular in the Humboldt country, bacon and greens.

The discussion was over Rudolph Spreckels' new Pacific party. One said the emphasis was on the first syllable. Another said it was on the second. Another said that either pronunciation would "go." Still another said either would go better than the ticket would. Which seemed to exhaust the subject.

The friends of Miss Mildred Helfrich were somewhat surprised when she returned from San Francisco Sunday evening and registered at the hotel as Mrs. Hahn. The lady, teacher of domestic science in the High school, went to her home in Oakland Friday evening and was married Sunday.—Gustine Standard.

The Reading Searchlight thus gets out of a typographical fix: "The letter 'B' and not 'H' was used in an editorial squib Thursday morning in spelling the name of Rev. Hull of Anderson. The spelling was an error. The Searchlight has no desire to get funny with the reverend gentleman's name."

The electrifying of the S. P. railway lines in California is likely to come to pass. There are so many advantages in electric power over the locomotive that sooner or later it is bound to have precedence, at least in region like California, where incalculable horsepower abides in mountain rivers.

You see how unexpectedly events turn. A very short time ago the prospects of this country keeping out of complications were excellent. But now real trouble is heading right for us from two directions. The sinking of the Sussex threatens an imbroglio with Germany, and the mix-up with Mexico is already on.

The Marysville Appeal starts out on a new policy, thus: "The Appeal takes this opportunity to announce that in the past it has not given the attention it possibly should have to weddings and other social functions. We have not reported our own marriages with that wild abandon and utter disregard to space that for years have characterized the San Francisco and Sacramento papers."

SPIRIT OF THE STATE PRESS

"We need more feet," says a celebrated writer on medical subjects. Has the gentleman never suffered from corns, or is he in the pay of chiropodists?—Napa Register.

Railroad officials here have received notice that no dogs will be taken for shipment into Modoc, Lassen and Lake counties. A quarantine has been established on account of rabies.—Bakersfield Californian.

R. Michel of Oakland, who has been a guest at the J. R. Thorn home, left yesterday for his home.—Tulare Advance.

Instead of having the regulation annual banquet, the Board of Trade of Oakland will this year hold a big barbecue for members, wives, families and friends.—Santa Barbara News.

Some of the problems of this great and complex universe will probably never be explained. For instance—why does a thin woman want to wear hose with stripes running up and down?—Riverside Enterprise.

The Board of Supervisors objects to making Placer county the dumping ground for coyote hunters of adjoining counties, and very wisely have abolished giving bounty for coyote scalps.—Placer Republican.

SPRING THE TRAP.

A certain woman demands instant and unquestioning obedience from her children. One afternoon a storm came up and she sent her little son John to close the trap leading to the flag roof of the house. "But mother," began John. "John, I told you to shut the trap!" "Yes, but mother—" "John, shut that trap!" "All right, mother, if you say so—but—" "John!" Whereupon John slowly climbed the stairs and shut the trap. Two hours later the family gathered for dinner, but Aunt Mary, who was staying with the mother, did not appear. The mother did not have to ask many questions. John answered the first one. "Mother, she is on the roof."—New York Times.

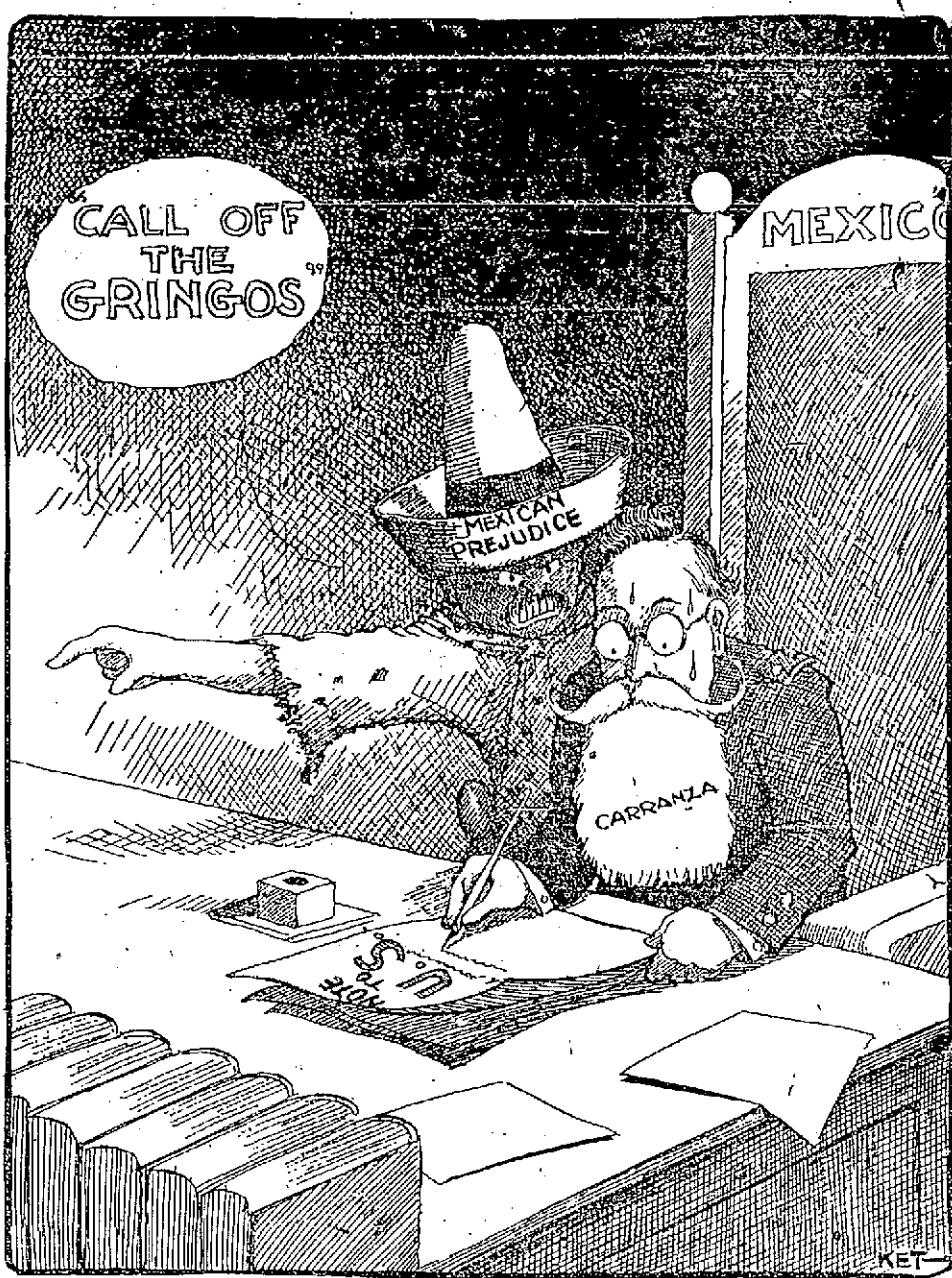

MEANDERINGS OF LUCK.

Strange how luck goes against some people. Here is the widow of a New Yorker preparing a memorial of her husband. He died last November and his executor sold for about \$1,500,000 his holding of Electric Boat stock, which had previously been practically worthless. Today the stock sold at that price is worth about \$15,000,000. It is said of many that they die too soon.—Hartford Courant.

WHEN THE FLAG CAME DOWN.

Mr. Bird appears to be as much of an admirer of Grover Cleveland as ever. Presumably he still thinks highly of Mr. Cleveland's Hawaiian policy. It was the "un-American" Mr. Cleveland who "hailed down the flag" at Honolulu.—Springfield Republican.

OBEYING ORDERS!

PRIMARY PSYCHOLOGY

The Ford primary in Michigan keeps a number of our people here and on feeding laughter to the world. The pacifist of the car has a fine collection so pacifistic in February that the humble task of withdrawing his name wasn't done until March 7, a day too late. Against his will he "ran" if running is not too swift a term to apply to the defeat of the Michigan primaries. "In of secretaries for peace, and they were some places," says the Detroit Saturday Night, "the vote was so small that the election inspector took it home in his pocket."

"It was a joke in the volume of the vote polled—less than one-third of the combined Bull Moose and Republican vote in 1912, and less than one-third of the Republican vote in 1908, in spite of the growth of the state in the meantime, thus leaving the winner approximately one-sixth of the total Republican strength."

PERSONALITIES.

Rev. Dr. S. W. Owen, former president of the General Synod of the Lutheran Church of the United States, died at his home at Engertown, Maryland, yesterday. He was 79 years old.

Dr. Hugh Schneider, formerly a member of the Century Opera Company, and at one time the champion pistol shot of the United States, is dead at his home in New York at the age of 88 years.

Benjamin R. McGuire of Brooklyn, New York, was ordained presiding bishop of the Reorganized Latter Day Saints Church at the general conference of the organization yesterday. The office of presiding bishop is second in importance to the presidency.

SHACKLETON'S CHANCES.

The full information obtained from Lieutenant Stenhouse of the Aurora, upon his arrival at Dunedin, New Zealand, is reassuring upon but one of the two points which have given anxiety in regard to the Shackleton expedition. The party which the Aurora left ashore when it was torn from its moorings last May in Ross Sea, off Cape Evans, should be safe enough. The food and other supplies left at Cape Evans and at the adjoining headland, Cape Royds, would be quite sufficient to sustain the shore party until relief can reach them next year. But Lieutenant Stenhouse is not confident that this shore party, which was to go south toward the pole to meet Captain Shackleton at Cape Beaufort, will be able under the circumstances to reach that point. Cape Beaufort is well within the "farthest south" which Scott reached in 1902, and one-fourth of the distance from Cape Royds to the pole. If Shackleton arrived there in need of fresh supplies, after the hardships certain to be encountered in the passage across the unexplored stretch from Prince Luitpold Land, the lack might be fatal. The boldness of Lieutenant Shackleton's attempt lies in the fact that, while the two expeditions which have thus far reached the pole made it by a quick dash from the well-explored coast fronting on Australia, returning directly, he is attempting a journey entirely across the polar continent from the almost totally unknown coast fronting on South America. If he succeeds he will have more than doubled our knowledge of the polar waste, but success must be imperiled by the failure to meet him upon his emergence.—The Nation.

DEMAND AND SUPPLY.

Mr. Edison says that, with proper equipment, he could turn out a submarine every fifteen days. That is almost as fast as Daniels can disassemble them.—Philadelphia North American.

Mr. Ford represent diametrically opposite principles on the issues with which they are identified, that one is the embodiment of militarism and the other the leader of ultra-pacifism, a very considerable everywhere would cordially and enthusiastically support both of them.

The folks who voted for Ford and anti-preparedness would have voted as cheerfully for Roosevelt, preparedness and the "heroic mood," if that amiable controversialist hadn't been more skillful than the pacifist in eluding the Wolverine "people's choice." Deep are the mysteries of primary psychology. Mr. Ford has given his—or somebody else's—delegates their freedom to "vote as their conscience dictates." They will compliment him on the first ballot. Then they will do as they please. Governor Ferris of Michigan, a Wilson man, whose wish is perhaps father to his thought, believes that the colonel may be their second choice. Or is this opinion another application of the suggestion of notoriety?

The more the Michigan primaries are studied the queerer they seem. Wasn't William Alden Smith really "vindicated" by the triumph of his opponent? New York Times.

PLOTS, NOT RIFLES NEEDED.

While various types of interventionists are striving to involve this nation in general hostilities with the people of Mexico, it is pleasant to know that patriotic Mexicans who are best informed as to actual conditions understand the true attitude of the people of the United States toward their neighbors to the South. One of these men is quoted in The Daily News as saying: "What we need now is plots, not rifles; and, most of all, American aid and ideas."

This applies not only to Mexico, but to all the world. Citizens of this country may be justified in thinking that when the world again turns to the United States for plans instead of rifles American aid and American ideas will help the nations to return to a permanent condition of peace. With this hope before them Americans will continue to do what they conceive to be their duty toward all the nations now suffering from the heavy blows of war.—Chicago News.

HELPS ARMY'S MOTIVE-POWER.

A patent cooking outfit which was not approved by the War Department enough to make a purchase of it was allowed to follow the soldiers into Mexico. The owner took it along with a pair of mules to draw it on two wheels. The boys in blue laughed all through the moving through the desert, for the cooker was a failure. There was nothing to cook. Hardluck does not require a fire to prepare it in the field. But when the punitive army got hold of Mexican beef the cooker began to loom up, and the soldiers have lived on roast beef, rich soups, and other real food for many days. And that rolling cooker man is more popular than the general. The boys would rather have Villa escape than a cooker.—Worcester Telegram.

THE JESTER.

A Colored Malaprop.
Misses—So the automobile almost ran you down, did it, Hamman?
Hamman—Hill also did, Misses Arthur. Hill's nothin' but a dispensary of Providence dat I'm libin ter tell da tale.—Boston Transcript.

Flippancies.
Afrabins should increase the floating population.
Cooking school girls don't always pan out well.

"When the house gets cold the tenants are apt to get hot."
Most of the "good fellows" have a lot of bad habits.

Speaking of work, that's as near as some men ever get to it.
When an irritable man is on a loaf he is not so crusty.

It is easier to carry on a flirtation than it is to carry off an heiress.—Boston Transcript.

Dangers of Pharmacy.
"Did you ever make a serious mistake in a prescription?"
"Only once. Then I charged a customer 30 cents for a prescription instead of 50."—Youth's Companion.

The Salmon Rights.
Officer, fishing (making the most of his short leave)—But we fight on Sunday, Donald, so where's the harm?

"Sometimes," confided Mrs. Longwood to her intimate friend, "I think my husband is the patientest, gentlest, best-natured soul that ever lived, and sometimes I think it's just laziness."—Christian Register.

Pointed.
Misses—Well, Jones, I hope we shall get more out of the garden this year. We had next to nothing last year.

Jones—Ay, 'twere their plucky pheasants 'ad most on it last year.
Misses—If you ask me, I should say it was two-legged pheasants!—Funch.

TILE HOME TOWN.

Some folks leave home for money
And some leave home for fame,
Some seek sides always sunny,
And some depart in shame.
I care not what the reason
Men travel east or west,
Or what the month or season,
The home town is the best.

The home town is the glad town
Where something real abides,
'Tis not the money-mad town
That all its spirit hides.
Though strangers scoff and flout it,
And even jeer its name,
It has a charm about it
No other town can claim.

The home town skies seem blue
Than skies that stretch away,
The home town friends seem true
And kinder through the day.
And whether plump or cheery
Light-hearted or depressed,
Or struggle fit or weary,
I like the home town best.

Let him who will go wander
To distant towns to live,
Of some things I am fonder
Than all they have to give.
The gold of distant places
Could not repay me quite
For those familiar faces
That keep the home town bright.

WOMAN CURED OF STOMACH ILLS

She Had Suffered From Stomach Trouble Since Childhood Without Relief.

Health is the most desirable thing in all the world, for if one has health they can acquire wealth. The proof of the value of any preparation for restoring health lies in what it has accomplished. Plant Juice, the new herbal system tonic, now being introduced here, embodies the four fundamental principles of health: good circulation, elimination, relaxation and prevention.

That this is proven conclusively it is only necessary to listen to statements of local people who have been benefited by Plant Juice after they have given up all hope. Recently the signed testimonial of

allery
dead

10

trouble ever since I was a child. I have always had cramps in my stomach and my left side was affected. My heartache gave me a lot of trouble and I was so nervous that I could not get a good night's rest. It was told that I had gas trouble and have taken all kinds of medicines but never had been benefited by them. I have now used only two bottles of Plant Juice and my stomach has never been in such fine condition. My food digests properly and I am no longer nervous. My heart does not give me any trouble and the gas troubles have dissolved and passed away. Plant Juice is the greatest medicine in the world, for it has cured me and I am recommending it to everyone."

Plant Juice is sold in all Owl Drug Stores.—Advertisement.
